

TRAINING PROGRAM

for

Medical Officers

on

Identification and Essential Care of Psychiatric Disorders

has been initiated by

Lokopriya Gopinath Bordoloi Regional Institute of Mental Health [LGBRIMH]
Tezpur, Assam, 784001

The basic aim of the training program is to enable primary health care providers attain competencies in delivering care for people with mental health conditions. By the end of the training, the Medical Officers should be able to

- Identify common presentations of mental disorders
- Know assessment principles necessary for management
- Provide basic psychiatric intervention and manage comorbid physical conditions.
- Plan and perform follow up for mental health conditions.
- Know when to refer to specialists as appropriate and available.

This program is suitable for doctors willing to upscale their knowledge in mental health related conditions and translate knowledge into clinical practice.

Currently running: Training for Medical Officers from Meghalaya.
