Sub: *Use of Generic Medicines.*

Madam/Sir,

Kind attention is drawn to Medical Council of India's code of Professional Conduct, Etiquette and Ethics published in Part III, Section 4 of the Gazette of India, dated 6th April, 2002. The provision, 1.5 of the said Regulation mandates that, "Every physician should, as far as possible, prescribe drugs with generic names and he / she shall ensure that there is a rational prescription and use of drugs". This Regulation was amended vide Notification dated 21st September, 2016 as under:

✓ "Every physician should prescribe drugs with generic names legibly and preferably in capital letters and he/she shall ensure that there is a rational prescription and use of drugs".

Various studies have revealed that, some Government doctors have not been adhering to this stipulation.

It is requested that necessary instructions may kindly be got issued to doctors of Healthcare Establishments under your Ministry to strictly adhere to MCI provision and ensure prescription only by generic name where ever generic drugs are available.

Yours faithfully,

(Oma Nand)
Director
