Step by step process for using the BMJ database from ERMED Consortium-

1. **RTOP**-research to publication is suitable for anyone conducting research on medicine, healthcare, public health, and epidemiology- or any staff responsible for fostering a culture of research and publication at their institution.

All collections-

- i. How to develop and report good research questions.
- ii. Developing and writing protocols.
- iii. Choosing the best study design
- iv. How to do ethical research
- v. How to write a research paper
- vi. The essentials of running a clinical trial
- vii. Picking the right journal and getting published
- viii. Avoiding scientific misconduct
- ix. From patient to publication :How to write a case report

2. **BMJ Best practice**-Evidence based clinical decision support information for the multidisciplinary team.BMJ best practice takes you quickly and accurately to the latest evidence based information,whenever and wherever you need it.

What's New -

- Clinical updates
- News
- Podcast

Access-
